

Product data sheet – egeplast SLA Barrier Pipe

Dimension:	OD 25-630 mm, SDR 17/11
Piping construction:	 Core pipe: PE 100, black coloured Aluminium barrier layer Outer layer: polyethylene, blue coloured, brown stripes Type A acc. to WIS 4-32-19
Intended use / suitable installation techniques :	open trench installation, horizontal directional drilling, burstlining, relining, soil displacement
Material:	PE/AL/PE
Maximum operating pressure:	SDR 17: PN 10 (SF 1,25) SDR 11: PN 16 (SF 1,25)
Welding group:	003-005
Delivery form:	6, 12 or 20 m sticks coils 50/100 m other lengths on request
Marking:	Coloured metre marking
Standards:	WIS 4-32-19
